Website: www.mayosligomart.ie

Licence No: 002934

General Sale Conditions

- Heifers and dry cows must NOT be in calf.
- Any animal identified as a twin must be declared.
- Calves must be a minimum of 10 days old and under 6 weeks of age to be sold without TB testing.
- All stock must be properly dehorned.
- All stock must have two complete identification tags.
- All cattle must be pre-entered for all sales.

Disease Testing Requirements

Tuberculosis (TB):

All cattle aged 6 weeks and over, including calves, must be within 12 months of a TB test. Animals included in your most recent herd test and not moved since will be eligible for sale under that test.

BVD:

All livestock born from 1st January 2013 onwards must be BVD tested prior to sale.

Export Testing Rules

- Animals must be within 30 days of a TB test and originate from a complete clear herd to qualify for live export.
- If animals are outside the 30-day period, they may be retested by the exporter, provided it is at least 42 days since the last TB test i.e. animals between 30 and 42 days since their last TB test are NOT eligible for export.
- Export certification is not required at point of sale.
- Animals must remain in the herd for 30 consecutive days prior to export. Animals returned unsold from another mart must complete a further 30-day residency.

Sheep Sales Requirements

- All sheep, including lambs, must be identified with a full set of EID tags.
- All sheep movements to and from the mart must be accompanied by a valid dispatch document with a barcoded serial number.
- Dispatch documents must be submitted on the day of sale. No documents = no sale.
- Sheep are entered on the day of sale; no pre-booking required.
